

Business Insights Report

Key Insights

1. Gender-wise Sales Analysis

- Women contribute approximately **65% of the total purchases**, making them the primary customer segment.
- Men account for the remaining **35%** of sales.

Insight:

Marketing campaigns should primarily target female customers, as they generate the majority of revenue.

2. State-wise Sales Analysis

The highest sales are generated from:

1. Maharashtra
2. Karnataka
3. Uttar Pradesh

Insight:

These three states contribute the largest share of overall sales and should receive higher marketing investment.

3. Age Group Analysis

The **Adult age group (30–39 years)** contributes the highest percentage of sales.

Insight:

Customers in this age bracket are the most active buyers and represent the most valuable customer segment.

4. Sales Channel Performance

The top-performing sales channels are:

- Amazon
- Flipkart
- Myntra

These platforms generate the majority of online sales.

Insight:

Increasing visibility and promotional campaigns on these marketplaces can significantly improve sales.

Business Recommendations

Based on the analysis, the following actions are recommended:

- Focus digital marketing campaigns on **women aged 30–39 years**.
- Allocate a larger marketing budget to **Maharashtra, Karnataka, and Uttar Pradesh**.
- Offer **discounts, coupons, cashback, and festival offers** to encourage repeat purchases.
- Increase advertising and promotional activities on **Amazon, Flipkart, and Myntra**, as these platforms contribute the highest sales.
- Introduce personalized product recommendations for returning customers.
- Launch targeted social media campaigns aimed at women in the identified age group and regions.

Final Conclusion

The EDA reveals that **women aged 30–39 years living in Maharashtra, Karnataka, and Uttar Pradesh** are the most valuable customer segment

for Vrinda Store. Additionally, **Amazon, Flipkart, and Myntra** are the most effective sales channels.

To maximize revenue, Vrinda Store should prioritize targeted marketing campaigns, promotional offers, and advertising on these platforms while focusing on customers in the identified demographic and geographic segments.

Recommended Strategy:

Target women customers aged **30–39 years** residing in **Maharashtra, Karnataka, and Uttar Pradesh** through personalized advertisements, discounts, coupons, and promotional offers on **Amazon, Flipkart, and Myntra**. This strategy is expected to improve customer engagement, increase conversions, and drive higher overall sales.
